Aqua Detox, USA  
136 Stutts Road, # 4  
 Mooresville, NC 28117

Dear Peter:

I would like to inform you of the difference that the Aqua Detox system has made for my business. When I first opened my business, I had purchased a machine from one of your competitors, however since I integrated the Aqua Detox System into my business, my clients are requesting to be put on the Aqua Detox system only. They request it by name and only want to be scheduled when it is available.

As you are well aware I do many treatments per day, to people with cancer, MS, diabetes, fibromyalgia, autism, ADD, ADHD, joint problems, depression, high blood pressure to name a few, and to people that just want to continue to be healthy. The results that I am getting are incredible, to the point where my customers are purchasing machines for home use, as some of these people will need the treatment for life.

For example: people who have not been able to get dressed or walk down a set of stairs due to pain, because of problems with their joints are now able to do so. People with depression due to having lost a loved one, are now able to cope and live a happier life. Children with Autism are now able to focus or have started talking for the first time in their life; some of them are able to live a normal life. People with Candida after the first treatment have noticed a huge difference. One of my customers called it a miracle machine, and I agree with her, it is truly miraculous.

The fact is that it has been one of the easiest services to market. I provide the service at the health food stores one day per week, this has brought about awareness and has brought additional business that I would not have had otherwise received for all of the other services we offer. I also take advantage of any speaking engagements and networking groups that I know would be interested in health.

I thank you for introducing this system into this market. I know the company will continue to prosper as it is playing a major role in many people's lives and businesses.

Sincerely,

Maria Herrera
